

# Oregon State Penitentiary

Oregon State Penitentiary (OSP) is the oldest most unique Correctional Facility in the State. The building is well noticed by our 25 foot walls and houses 2,200 adults in custody at a variety of classification levels.

While OSP is one of the largest facilities in Oregon, we provide a wide variety of career opportunities in almost any field you would find in the community. Those careers include security, culinary, trades, health services, clerical, mental health, counseling, recreation coordination, and administration. The plethora of opportunities is endless.

If you are looking for career growth or need a change of scenery, OSP's central location provides opportunities to surrounding institutions such as OSCI and SCI for career growth without having to move!

Building a culture within our OSP community to help provide the necessary tools for those returning to society. This job can be challenging but very rewarding. You can be the change to help OSP move forward in innovative thinking and advocating in changing lives every single day!
